

Dino Kale

Dark green and tender

CERTIFIED ORGANIC SEED

This beloved kale variety is the sweetest of them all.

Dino Kale

Brassica oleracea

100 seeds

Days to Harvest:	152-160
Days to Maturity:	65
Height at Maturity:	18 to 36 inches
Row Spacing:	12 inches
Plant Spacing:	18 inches
Planting Depth:	1/2 inch

Dinosaur Kale has a deep green hue and crinkly-yet-palatable leaf that makes it a popular pick among chefs, home gardeners, and vegetable lovers.

How to Grow

Direct sow about a month before last frost. Or sow under protection eight weeks earlier, then transplant about a month before last frost. Harvest individual outer leaves. Slower growing than other kales, so harvest with restraint.
