

Fox Cherry Tomato

F

Reliable, high-yielding two-bite cherry

NORTHEAST GROWN
CERTIFIED ORGANIC SEED

*Highly vigorous—yields loads of
tomatoes, even in tough years.*

Packed for 2019	Lot 01-1903	ORG 98%
Fox Cherry Tomato	Days to Sprout:	3 to 10
<i>Solanum lycopersicum</i>	Days to Maturity:	75 from transpl ant
225 seeds	Height at Maturity:	72 inches
	Row Spacing:	42 inches
	Plant Spacing:	24 inches
	Planting Depth:	1/2 inch

Big, rangy vines yield loads of well-flavored 2" fruit: large enough to be more useful for cooking than smaller cherries. More disease-resistant than standard varieties.

How to Grow

Start seeds indoors 6-8 weeks before last frost in a warm spot with ample light (supplemental light usually required). Transplant outdoors once frost has passed. Staking required. Prune tomatoes when they reach about 24" high.
