and beyond.*

Packed for 2019 Lot 02-96644 90%

N I S L A N D	Mammoth Long	Days to Sprout:	7 to 21
	Island Dill	Days to Maturity:	65
	Anethum graveolens	Height at Maturity:	24 to 36 inches
	600 seeds	Row Spacing:	24 inches
		Plant Spacing:	9 to 12 inches
		Planting Depth:	¼ to ½ inch

Originally named Long Island Dill, this tall, billowing plant is perfect for edible landscaping, container gardens and pickles! Use all parts to impart dill flavor to dishes.

How to Grow

Direct sow around last frost or indoors before last frost. Transplant fairly quickly. Sow every 3-4 weeks for highest quality fresh dill leaves all season. For use as a dry herb, harvest before the umbel flowers form.
