| 100 seeds | Height at Maturity: 12 inches |
| | Row Spacing: 24 inches |
| | Plant Spacing: 24 inches |
| | Planting Depth: 3/8 inch |

Large, drumhead storage cabbage. Savoy leaf cabbages are perfect for summer slaw dishes and brighten winter soups. Heads are open and loose with complex, sweet flavor.

How to Grow

Sow indoors six weeks before last frost. Transplant when there are two sets of true leaves, 24" apart. For fall harvest, start seeds 14-16 weeks before first fall frost. Requires fertile soil, plenty of water. Harvest once heads are heavy.
