Packed for 2019 Lot 04-34918 91%

Sulphur Cosmos

Cosmos sulphureus

250 seeds

Days to Sprout:	7 to 14
Days to Maturity:	90
Height at Maturity:	48 inches
Row Spacing:	18 to 24 inches
Plant Spacing:	18 to 24 inches
Planting Depth:	¼ inch

A lacy-leaved and flat-bloomed answer to calendula in the same terrific golden hues. Foliage is robust by late summer, forming a beautiful rounded clump of thin-leaved green.

How to Grow

Flowers with a bushy habit. Plant where they won't shade out other plants or mix with other tall annuals. Start indoors six weeks before last frost. Transplant after threat of frost has passed. Bright blooms don't last long after cutting.
